

Commercial

Welcome to Seaward Commercial Boats

Seaward builds the famous Nelson 29, 35, 40 and 42 pilot boats, in service with pilotage authorities around the world. We also produce service launch variants for patrol, survey and general work. Over the last few years we have delivered pilot boats and service launches to professional operators in locations as far apart as the Indian Ocean island of Reunion, Morocco, the Falkland Islands, Spain, Denmark and Italy.

We build to international classification society standards and to the requirements of the customer's local authority.

Please contact us for a proposal for your next vessel.
