Seaward Squadron
The Seaward Squadron is an informal club for the owners of the Seaward Squadron boats which were first developed and built in 1964.

The members have a very successful and active programme in the club which includes the UK, France, the Netherlands, Italy and elsewhere. Locals have their own boat and are very active in the club's activities.

The members' programme which was held at the Beaucette Marina Development, including dinner on the Beaucette Lake, was held on the 17th June and was a great success.

The members' dinner is followed by a presentation of the award for the best boat cover.

Seaward was founded in 1964 by Bernard van Marle who is now the club's president. He was joined by 11 other members to form the Seaward Squadron in the Beaucette Marina. Since then the club has grown and the club's activities have become very active.

Seaward produces a range of boat covers and a range of seasonal boat covers for their sea-facing yachts.

Members of Seaward Squadron are seen with their boats at Beaucette Marina.
